Time Entry – paid holidays and other forms of calculated time are now included in total hours when submitting time.

When reviewing time submissions, the system will now reflect the total for the week, including paid holiday and other forms of calculated time.
The supervisor view also reflects 40 hours.

NOTE: The Inbox item will NOT reflect time offs as they have been approved elsewhere in the system. They will continue to show under “all current time” in the Time Entry Approval inbox item for the supervisor as they do today.
